

## COMMISSIONING SERVICES FOR PROPERTY OWNERS

## We ensure perfect operation of your new Air Handling Unit

When you choose Commissioning Service from FläktGroup you will benefit from the expertise and support from our certified service engineers. Who better to ensure that your new Air Handling Unit is functioning optimally than the team who designed it.

We offer a streamlined commissioning process that will ensure that every step of the installation runs smoothly and without delays, from planning and regulations to final checks of the system. A FläktGroup commissioning gives you optimal indoor climate in the most energy efficient way possible – for satisfied building occupants and happy owners.

### KEY BENEFITS

- Fast commissioning by product certified engineers
- Perfect operation of your Air Handling Unit
